## The Commonwealth of Massachusetts.

## **REPORT.**

Headquarters of the Police Department, Office of the Police Commissioner, 154 Berkeley Street, Boston, December 1, 1951.

To HIS EXCELLENCY PAUL A. DEVER, Governor of the Commonwealth.

YOUR EXCELLENCY:

In compliance with the provisions of Chapter 291, Acts of 1906, as amended, I have the honor to submit the following report of the activities of the Boston Police Department for the year ending November 30, 1951.

The morale of this organization is excellent, and it is a pleasure to express my appreciation to the members of the Department for their loyalty and efficiency in carrying out their assignments.

I extend my sincere thanks to Your Excellency for my reappointment as Police Commissioner and for the support you have given the Department during the past year.

Respectfully submitted,

THOMAS F. SULLIVAN, Police Commissioner.

#### PRESENTATION OF MEDALS.

The Walter Scott Medal for Valor for 1951 and Department Medals of Honor, as recommended by a Police Board of Merit, were awarded at the annual ball of the Boston Police Relief Association, held at the Boston Garden, December 10, 1951, as follows:

#### The Walter Scott Medal for Valor and a Department Medal of Honor to Detective Stephen W. Smolinski of the Special Service Squad.

Detective Stephen W. Smolinski of the Special Service Squad is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for meritorious duty performed on June 22, 1951.

Detective Smolinski, without regard for his own safety, entered a building in pursuit of a man wanted for shooting and killing a store clerk, and was shot and wounded in the head in his attempt to capture the criminal.

#### DEPARTMENT MEDALS OF HONOR.

Detective James V. Concannon of the Special Service Squad and Detective Daniel L. Crowley of Division 10 each are awarded a Department Medal of Honor for meritorious police duty performed on June 22, 1951. These officers succeeded in cornering in a building the man who had killed a store clerk and wounded Detective Smolinski. When called upon to surrender he attempted to shoot the officers, whereupon they fired simultaneously, killing this vicious criminal.

Patrolman Thomas J. Regan of Division 2 is hereby awarded a Department Medal of Honor for meritorious police duty performed on December 23, 1950. In the early morning hours Patrolman Regan by his alertness surprised a man in the basement of a building who had just demolished a safe and removed a large sum of money. He attempted to shoot the officer but was overpowered and taken into custody.

Patrolman Morgan F. O'Loughlin of Division 4 is hereby awarded a Department Medal of Honor for meritorious police duty performed on April 29, 1951. While checking the doors of a business concern in the early morning hours, Patrolman O'Loughlin observed a man crouching behind a counter. The man fled to the rear with a metal cash box. The officer circled the building and after a chase managed to apprehend this criminal at the point of his revolver.

#### WORK OF THE DEPARTMENT.

ARRESTS.

The total number of arrests, counting each arrest as that of a separate person, was 76,736, as against 90,069 for 1950.

There were 15,310 arrests on warrants and 31,414 without warrants; 30,012 were summoned by the courts.

The number of males arrested was 68,750; of females, 7,986; of foreigners, 3,256; of delinquents, 2,329; of minors, 5,895; of nonresidents, 22,685.

The number of persons punished by fines was 27,137, and the assessment of fines imposed by the courts amounted to \$162,064.

The total number of days' attendance at court by officers was 32,243, and the witness fees earned amounted to \$12,762.15.

There were 24,964 persons arrested for drunkenness, an average of 69 per day, as against 27,292 or an average of 75 per day in 1950.

One hundred twenty-three persons were committed to the State Prison; 1,914 to the House of Correction; 52 to the Women's Prison; 91 to the Reformatory Prison; and 2,832 to other institutions; and the total years of imprisonment were 1,306 (690 sentences were indefinite).

The value of property taken from prisoners and lodgers was \$194,608.85.

The value of property stolen in the city amounted to \$3,060,683.69 and the value recovered amounted to \$2,513,495.37.

The Commissioner has attempted to find out what percentage of arrests in other cities is of nonresidents. This percentage is so small in other cities that statistics are not kept of this class of arrests; therefore, it should be borne in mind in making comparison of Boston with other cities, either of the cost of policing or of criminal statistics, that 31 per cent of the arrests in Boston is of nonresidents, whereas other cities have but a negligible percentage of arrests of nonresidents.

For the twelve months ending November 30, 1951, as compared with the same period ending with November 30, 1950,

#### DETECTIVE BUREAU.

A Detective Bureau was established in the Boston Police Department on November 6, 1950, in accordance with the provisions of chapter 735, Acts of 1950. Detectives assigned to this bureau are detailed to the Bureau of Criminal Investigation and the various police divisions.

#### BUREAU OF CRIMINAL INVESTIGATION.

The Bureau of Criminal Investigation is composed of several units, namely: Automobile, Ballistics, Chemical Laboratory, Homicide, Lost and Stolen Property, Identification, Missing Persons.

In addition, special squads are assigned to cover the following phases of police work and investigations: banking, express thieves, general investigation, holdups, hotels, narcotics, pawnbrokers, junk shops, second-hand article dealers, pickpockets, radicals, shoplifters, night motor patrol.

Members of this bureau investigate felonies committed within the jurisdiction of the City of Boston. They also handle cases of fugitives from justice and conduct hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, they cooperate in every way possible with outside police departments in investigation of crime and prosecution of criminals.

#### Automobile Unit.

This unit investigates all reports of automobiles stolen and is in daily communication with police authorities of the United States and Canada. Many investigations are made in cooperation with the Federal Bureau of Investigation, Post Office Department, and immigration authorities of the United States.

The automobile unit index contains records of cars stolen in Boston, cars stolen in other places, cars reported purchased and sold, cars for which owners are wanted, cars used by missing persons and cars whose operators are wanted for various offenses. Many arrests are made by officers of the department and the automobile unit through information obtained from this index.

All applications for Used Car Dealers' Licenses are investigated by officers of this unit. Frequent examinations are made to ascertain if used car dealers are conforming to the conditions of their licenses.

Using mechanical appliances and chemicals, members of this unit during the year identified a number of automobiles which were recovered or found abandoned on police divisions, restoring them to their owners, and have assisted in solving many crimes by means of their positive identifications.

#### Record of Automobiles Reported Stolen in Boston for the Year Ending November 30, 1951.

#### LOST AND STOLEN PROPERTY UNIT.

A description of all articles reported lost, stolen or found in this city is filed in this unit. Many cities and towns throughout the United States forward lists of property stolen in such places. All pawnbrokers and second-hand dealers submit daily reports of all articles pawned or purchased. A comparison of the description of articles reported lost or stolen and those articles which are pawned or purchased by dealers resulted in the recovery of thousands of dollars' worth of stolen property and the arrest of many thieves.

Pawnshops and second-hand shops are inspected daily, for the purposes of identifying property which may have been stolen.

#### Homicide Unit.

Officers of this unit investigate all homicide cases and interrogate persons involved in or who have knowledge of crimes of murder, manslaughter, abortion and other violent crimes. They prepare, supervise and present evidence at inquests. 1952.]

#### BALLISTICS UNIT.

Personnel consists of members of the Bureau of Criminal Investigation expert in ballistics, explosives and munitions. All evidence found at the scene of crime where firearms or explosives were used is examined. Suspected weapons are catalogued, fired for test and comparison purposes, and spent bullets and cartridge cases from these weapons are filed. Cases involving ballistic evidence are prepared and presented in the various courts.

All department firearms, accessories pertaining to the same, and tear gas equipment have been inspected and serviced.

All firearms held as evidence pending disposition by the courts are recorded.

Stolen firearms are traced and whenever possible are returned to the rightful owners. A file is kept on stolen firearms and checks are made against the file at the Lost and Stolen Property Unit and at the files of the Massachusetts Department of Public Safety.

When firearms, property of the United States, are found used in crime or recovered otherwise, such property is returned to the proper military or naval authorities after cases are disposed of by the courts.

This unit works in cooperation with other police departments, federal agencies, military and naval intelligence units.

Emergency Equipment on All Divisions.

All police divisions and several units have on hand a supply of emergency equipment.

Harbor Police Division is equipped with line-throwing guns and rifles.

Periodic inspections are made and equipment replaced whenever necessary.

#### CASES.

#### TRAFFIC DIVISION.

The Traffic Division is responsible for the control of traffic within the area of Divisions 1, 2, 3, 4 and 16. It enforces, concurrently with the foregoing divisions, the statutes, ordinances, rules and regulations which pertain to traffic within this area.

Notices of parking violations for the entire department are processed through the facilities of the Traffic Division.

The Traffic Division provides a safety education program for the benefit of the citizens of this community through the medium of the M-1 Safety Squad.

#### ACTIVITIES.

It was necessary, during the current year, to cope with an ever-increasing traffic flow which might best be measured by the increase in vehicular registrations for the entire commonwealth. The latest available figures show that on October 31, 1951, the total registration was 1,272,159, an increase of 59,333 over the total registration of 1,212,826 on October 31, 1950. Traffic in Boston is now up 30 per cent from the pre-war level.

An actual count compiled by the Public Works Department of the Commonwealth in the spring of 1951 showed approximately 275,000 vehicles passing through the intown section of Boston daily. Charles street alone handles 45,000 of this daily flow, Atlantic avenue, 37,000, with Massachusetts avenue, Tremont street, Commonwealth avenue, Huntington avenue, and Cambridge street each exceeding 30,000.

During the current year the James J. Storrow Memorial Highway, along the Boston side of the Charles River, was completed. This artery is expected to relieve some of the burden hitherto imposed upon the other roadways of the Back Bay area.

Construction has begun on the northern end of the new aerial highway system requiring the closing of Beverly street and the reversal of the direction of flow on Haverhill street. Construction activity is imposing an additional traffic burden on many of the roadways of the North Station district, and, as this work progresses across the city during the next few years, it will constitute a traffic problem of major proportions. A considerable portion of the freight previously handled at the Albany street sheds was transferred to Utica street facilities permitting a freer flow of traffic on Albany street.

The usual program of parades was conducted over the customary routes without incident. Traffic was detoured by pattern recommended by this division. Extremely heavy traffic was experienced on those holidays during which retail stores remained open for business.

Traffic incident to a full calendar of sporting events, conventions, operas, concerts and similar activities throughout the year was handled with customary efficiency.

There were many notables among the visitors to our city who were furnished escort service by the Traffic Division, chief among them, General Douglas MacArthur. Others included the Ambassadors of England and Italy, the Minister of External Affairs for Ireland, the Prime Minister of Israel, the Patriarch of the Armenian Church, the Secretary of War, the Assistant Secretary of the Navy, the Commanding General of the Marine Corps, the Governors of Maine, Connecticut and Michigan, United States Senators and Representatives, the National Commanders of the Marine Corps League and the Army and Navy Union, Officers of the British and Italian Navies, dignitaries of the Masonic Orders, actors and actresses of national reputation and the national officers of the Girl Scouts.

#### PARKING.

Prosecution of violations of parking regulations was continued during the current year in accordance with a system inaugurated January 1, 1950, whereby the violation notices of the entire department are cleared through the Traffic Division. During the police year ending November 30, 1951, 382,642 notices of parking violations were mailed to the owners of automobiles found to be parked in violation of regulations. This is the highest output in the history of the department.

The Traffic Division tagged 213,081 vehicles during the year ending November 30, 1951. Of this figure 62,003 were for parking meter violations.

The revenue for parking violations in the Central Municipal jurisdiction during the year ending November 30, 1951, amounted to \$348,635.56.

Parking meter revenue for the entire city for the same period amounted to \$629,164.95.

#### SAFETY EDUCATION.

The Traffic Division provides through the M-1 Safety Squad a program of safety education designed to reach every member of our community.

Its efforts are directed chiefly to the children. The M-1 Safety Squad conducts a program of daily visits to the schools of the city where safety is both discussed and demonstrated by the officers. During the vacation periods this program is continued at the various playgrounds and beaches of the city in conjunction with personnel of the Park Department.

Playlets on the subject of safety are broadcast every Saturday throughout the year through the facilities of Radio Station WMEX.

The services of these officers are sought by many groups seeking instructions in safety matters. The M-1 car is used also for escort purposes during the summer months when many school groups visit Boston's points of historical interest.

The use of this car has proven valuable in the conduct of parades and in the handling of the pedestrian problem caused by the heavy influx of shoppers during the Easter and Christmas shopping seasons.

#### TRAFFIC PROBLEMS.

The chief problems experienced in the handling of vehicular traffic in downtown Boston may be summarized as follows:

1. Illegal parking which persists despite record prosecutions and which can be attributed principally to two contributing factors; the inadequacy of present off-street parking facilities and the lack of sufficient penalties in the parking law to make it effective.

2. The lack of sufficient road capacity, a deficiency which is being improved considerably by the present road-building program.

3. Absence of truck terminals, a condition which finds many trucking concerns forced to use the public highways for such purpose.

4. The present location of the market where traffic slowdowns immediately affect such arteries as Atlantic avenue, North street, Union street and the Sumner Tunnel. This situation will be relieved upon completion of the proposed market terminal in the Southampton Street area. 5. The operation of drawbridges which close our principal traffic arteries, a condition which will be somewhat corrected on the north by the construction of a high-level bridge across the Charles River. Fort Point Channel, however, will remain as the major problem.

6. The conflict of parades and other holiday events with business conducted by retail stores on Patriots' Day, Columbus Day and Armistice Day, as well as the annual Boston School Cadets' parade.

#### HORSES.

On November 30, 1950, there were 16 saddle horses in the service, attached to Division 16.

During the year one horse was purchased.

At the present time there are 17 horses in service.

#### BUREAU OF OPERATIONS. DUTIES.

The Bureau of Operations has control of all communications equipment, consisting of telephone, teletype, radio and telegraph, and through its facilities has directed movement of radio cars, police boats and ambulances.

#### Accomplishments.

During the period from December 1, 1950, to November 30, 1951, personnel of the bureau managed transmission, reception and handling of:

247,157 outgoing telephone messages and 4,360 toll calls made by the department through our switchboard.

Approximately 388,459 emergency telephone messages received and handled at the "Turret" through either "DE 8-1212" or the department intercommunicating system.

Approximately 404,177 telephone messages received through our switchboard, many of which were transferred to the "Turret" for handling.

146,455 teletype messages and 747 telegrams were processed; 8,491 of these teletype messages related to missing persons.

6,919 automobiles were reported lost or stolen; 2,374 were reported stolen in Boston.

362,841 radio messages were sent, including "Sound Scriber" recording of same.

Four (4) main radio transmitters (Station KCA-860, 2 at Police Headquarters and 2 at Suffolk County Court House); 2 emergency transmitters at White Stadium, Jamaica Plain, for civilian defense; 111 automobiles; 27 combination patrolwagon ambulances and 4 boat transmitters and receivers; 36 wired broadcast amplifiers and 8 pickup receivers were maintained and kept in repair by members of this unit.

A radio shop is attached to the Department Automobile Maintenance Shop, where a 24-hour daily service is maintained.

#### CRIME PREVENTION BUREAU.

The Crime Prevention Bureau is created for the prevention of delinquency among juveniles, and to initiate a program of rehabilitation for maladjusted children, and for the performance of such other duties as the commissioner or superintendent may assign thereto.

DUTIES IN GENERAL.

1. Develop a program of crime prevention, intended to eliminate factors that induce criminal tendencies among children.

2. In this program, enlist aid of the public, interested agencies and divisions and units of this department.

3. Teach good citizenship, develop a proper mental attitude of citizens toward law-enforcement agencies, and especially educate the public and the police in the problem of crime prevention and suppression.

4. Determine persons and places which in any way contribute to delinquency of children; investigating and taking necessary action to correct such conditions.

5. Supervise and inspect places of public amusement.

6. Promote welfare of children, the sick, the aged and the needy; locating missing persons.

7. Investigate cases concerning boys and girls and assist in the investigation of cases where women are involved.

#### SUMMARY OF WORK ACCOMPLISHED.

Inspections and Investigations.

During the past year there were 22,238 inspections by the personnel of this bureau in connection with the following places:

Bus and railroad terminals	Hotels
Cafes	Theatres and amusement
Restaurants	centres
Dance halls	

One thousand two hundred and sixty-five investigations involving women, young girls and children, were completed.

# POLICE SIGNAL SYSTEM.

### SIGNAL BOXES.

The total number of boxes in use is 568. Of these 491 are connected with the underground system and 77 with the overhead.

### Miscellaneous Work.

In the past year employees of this service responded to 1,980 trouble calls; inspected 568 signal boxes; 16 signal desks; 18 motor generator sets; 400 storage batteries. Repairs have been made on 78 box movements; 19 registers; 72 locks; 12 time stamps; 10 vibrator bells; 69 relays; 26 electric fans; 19 motors; 19 generators. This unit is responsible for the installation and maintenance of all electric wiring and equipment at all police buildings.

Connected with the police signal boxes are 64 signal, 586 telephone and 68 blinker-light circuits.

The Signal Service Unit supervises all telephone and teletype installations and minor teletype repairs throughout the department. It also maintains 46 Headquarters-to-station house telephone circuits; 18 teletype-writer circuits, 18 radio-wired broadcast circuits, 6 radio-ear response eircuits; a circuit, with equipment, at the Charlesbank station of the Metropolitan District Police; also a circuit, with equipment, in booth at the East Boston end of the Sumner Tunnel; and the intercommunication units throughout the department.

The following list comprises the property of the signal service maintenance at the present time:

### HACKNEY CARRIAGES.

During the police year, December 1, 1950, to November 30, 1951, there were \*1,948 licenses to set up and use hackney carriages granted, being a decrease of 254 as compared with last year.

There were 306 articles, consisting of umbrellas, coats, handbags, etc., found in carriages during the year, which were turned over to the office of Inspector of Carriages. One hundred fiftyfive of these were restored to the owners, and the balance of 151 placed in the custody of the Property Clerk.

The following statement gives details concerning public hackney carriages, as well as licenses to drive the same:

#### Public Taxicab Stands.

There are 487 established public taxicab stands with capacity for 1,251 cabs, at the present time.

### Private Hackney Stands.

Chapter 392 of the Acts of 1930 provides for the occupation of private hackney stands (that is, upon private property) by licensed hackney carriage owners.

During the year, 28 applications (capacity, 438 carriages) for such private hackney stands were granted; of which 1 stand (capacity, 14 carriages) was abolished and license for same canceled. One private hackney stand (capacity, 50 carriages) was rejected.

### Sight-Seeing Automobiles.

During the year ending November 30, 1951, there have been issued licenses for 22 sight-seeing automobiles and 15 designated stands for same.

There were 36 sight-seeing drivers' licenses granted.

### Hackney Carriage Violations.

During the past year, 1,023 tags were issued to taxicab drivers for various violations. One hundred three penalties were imposed, which included 31 revocations. This system of discipline has continued to result in relieving courts of many minor cases which would tend to congest their dockets.

### SPECIAL POLICE.

Special police are appointed to serve without pay from the city, on a written application of any officer or board in charge of a department of the City of Boston, or on the application of any responsible corporation or person, to be liable for the official misconduct of the person appointed.

"New" applicants for appointment as special policemen for the year commencing as of April 1, 1951, were fingerprinted by the department, as has been the custom, and their records, if any, searched for by the Bureau of Criminal Investigation.

During the year ending November 30, 1951, there were 1,141 special police officers appointed; 6 applications for appointment were refused for cause; 8 appointments were canceled for nonpayment of license fee; and 10 appointments were canceled for other reasons.

Appointments were made on applications received as follows:

### PROPERTY CLERK.

The Property Clerk's Office is charged with the care of all police buildings, lost, stolen and abandoned property, money or other property alleged to have been illegally obtained, and all articles and property taken from persons arrested for any cause. In its custody are also placed all seized liquor and gaming implements which come into the possession of the Department.

All orders for supplies, building maintenance, uniforms and equipment are issued by this office.

During the year 118 motor vehicles came into custody of this office, 69 vehicles were returned to legitimate claimants and 29 vehicles were sold at public auction. There are now 36 motor vehicles in custody.

A maintenance shop for the servicing of department automobiles is in operation on a 24-hour basis. During the year, on 5,073 occasions, department cars were repaired and, on 2,271 occasions, cars were serviced. Twenty-six department cars and 123 privately-owned cars were towed by the department wrecker. The Department operates a motorcycle repair shop, where, on 321 occasions, motorcycles were repaired and serviced during the year.

The Supervisor of Automotive Equipment is responsible for the inspection of all department vehicles, all garages in the various divisions, and is required to investigate and report on all accidents involving department vehicles.
